Dear Dave:

We are writing this letter to thank you and compliment your workers on the wonderful job that they have done waterproofing our basement.

Your workers were neat - they took every precaution they could to keep all the accumulated dust in our basement. We did not have any dust throughout our house. They used an exhaust vacuum so excess dust was blown out of the house. Your men were quick, professional and knowledgeable.

Recently we have had a great deal of rain and our basement was completely dry, mold and mildew free and no musty order (the first time in the 34 years we live in this house).

We want to thank you for doing a terrific job. We will be pleased to recommend your company to anyone who needs waterproofing.

With sincere thanks,

Handwritten signatures of Sheila and Paul Schwartz in cursive script.
